

Treske

BEAUTIFUL HARDWOOD FURNITURE

Treske is an independent family firm with over 40 years experience of making bespoke hardwood furniture, kitchens and special church commissions. Everything that leaves our North Yorkshire workshops is made to order, to each customer's specification.

We use modern technology but remain totally committed to the skills of our workforce who select the best timbers, excel at fine craftsmanship and produce the exquisite finishes which bring out the beauty of the woods on every piece we make. It is their consistently high standards which keep our customers coming back for more and those contented clients' recommendations which bring new visitors to our showrooms and new orders on to our books.

Whether it be a single item or complete room, we take immense care over every order. Once a visitor has seen the quality of our furniture, fitted bedrooms, home offices and kitchens, they aspire to own and live with them. It is our task then to make their dreams come true.

From drawing to delivery, nothing is too much trouble for Treske. Our designers listen to and work with each customer to ensure that their individual needs and desires are catered for whether it be for a new family dining table, elegant chairs or a fitted home office.

After choosing a style and design, it is possible to specify every detail, for example the height, length or width of a table, the number of drawers or shelves in a dresser or the arrangement of interior fittings and storage in a wardrobe as well, of course, as the woods and finishes used.

The hardwoods we use at Treske come from sustainable forests where new trees are planted to re-stock areas that are felled. Most of the other timbers used are Forestry Stewardship Council certified. We are a holder of the Manufacturing Guild Mark from the Worshipful Company of Furniture Makers, awarded for excellence in British Furniture Manufacturing and are supporters of the charity Woodland Heritage.

ARTS & CRAFTS RANGE

The Arts & Crafts movement flourished in the 1850s as a challenge to industrialisation. Arts & Crafts furniture is characterised by excellent workmanship, high-quality materials and clean, simple lines which contrasted with the 'cluttered' style that was typical of Victorian-era decorative design.

Treske's oak furniture in the Arts & Crafts style began with a dresser, table and benches made for an exhibition of International Arts & Crafts at the Victoria and Albert Museum in London. We now make a complete range of authentic, handmade furniture true to this historic but timeless style.

ARTISAN RANGE

The Artisan range of furniture is characterised by clean flowing lines emphasised with subtle curves. The superb finish quality and variety of woods used makes this great solid hardwood furniture for your home, that will always be a joy to use.

Our artisan furniture design service guarantees that your furniture can be matched closely to other pieces of furniture in your home; your new artisan chairs or tables will have the sense of having always belonged.

RIEVAULX RANGE

Our Rievaulx range of furniture is characterised by elegant lines, tapered legs and chair backs and subtle curves to table tops. Lightness and grace are the keynotes for these timeless modern classics. 'Everywhere peace, everywhere serenity, and a marvellous freedom from the tumult of the world.' Written over eight centuries ago, these words still describe Rievaulx Abbey today.

The ruined Cistercian abbey, whose architecture is the inspiration for this range, lies in a tranquil wooded valley just a few miles from Treske's workshop and showroom in Thirsk.

HELMSLEY FARMHOUSE RANGE

Traditional but timeless, sturdy yet refined, our comprehensive Helmsley Farmhouse furniture range echoes the atmosphere and character of its namesake.

The unspoilt market town of Helmsley lies a few miles from Treske's North Yorkshire base and is much visited for its ruined castle, beautiful riverside walks, traditional tea rooms and handsome square. It is also the start of the famous long distance footpath that loops around the North York Moors, the Cleveland Way.

DINING TABLES

Treske offer a range of handmade hardwood dining room tables, combining top-notch craftsmanship with the highest quality, sustainably-sourced materials.

Choosing a dining table is important as it's a crucial feature of the dining room; the heart of the home, where family and friends share meals and create memories. Treske's enviable, extensive range of high-quality tables can be customised to suit your needs in terms of height, width, length, disposition of legs, supports and extensions. They also work wonderfully well with complementary chairs from our furniture ranges.

Create a haven of peace and tranquility, an escape from busy days...sleep soundly in a beautifully furnished Treske bedroom, blending style and taste with creative storage solutions.

Order from Treske's popular handmade freestanding bedroom furniture designs or speak to our design team and discuss how you can customise an item to create bespoke bedroom furniture to suit your specific needs.

FITTED BEDROOMS

BURR WALNUT & RIPPLE SYCAMORE FITTED BEDROOM

A truly bespoke bedroom made to exacting specifications. A choice of burr walnut bookmatched veneers was used in combination with ripple sycamore veneer, concealing practical storage and, concealed behind one door, a special dressing and make up area.

The design flows around the room with mirrors set at an angle on each side of the main window to reduce the impact of the wardrobes in the room and focus attention on the window. The built in bed headboard is also in burr walnut with individual lighting for each bedside cabinet made as part of the headboard.

GLEBESIDE MASTER BEDROOM

The Glebeside range of furniture is based directly on the unique Arts & Crafts style of the architect Charles A. Voysey and makes a feature of the soft curves and square tapered posts capped with characterful circular finials, as well as the Voysey trademark symbol of a pierced heart motif.

The timber used is oak but in a lightly fumed colour to suit a more contemporary situation, rather than the dark finish Voysey would have preferred. In this finish the furniture has a distinctive style offering a mellow feel to suit any home, traditional or modern.

ROSEDALE FITTED BEDROOM

Treske's designers and craftsmen create the ultimate in elegant fitted bedroom furniture. In this example pale, silky sycamore was used, with matching veneers to the panels and walnut detail to the kickboards and handles.

Treske provided exactly what was required in respect of the height of each hanging space and the depth and disposition of drawers and shelving. Interior lights on sensors and mirrors are practical, as is the matching ottoman seat with drawers for shoes, which is upholstered in a Jane Churchill fabric of the clients' choice.

MASHAM BEDROOM RANGE

The Masham bedroom range is a strong and striking collection with its iconic tapering legs and solid hardwood construction. A timeless design made to last a lifetime.

BEDS

ARTISAN LATUS BED

A sleek, modern bed with a statement wide headboard. This bed would be the perfect feature piece in a contemporary bedroom. The bed is available in a range of woods and most frequently made in oak and walnut. All Artisan beds from Treske are supplied with the recommended Lato flex mattress support.

AYSGARTH BED

This design has been inspired by the stunning Aysgarth falls in North Yorkshire. The headboard features are derived from the flowing waterfalls and the smooth curved shape highlights the natural beauty of the hand selected timbers. The most popular hardwood choice is walnut and oak but can be made in other timbers.

MASHAM BED

A striking example of a frame bed, usually made in either ash or oak but can be made in other timbers. The Masham bed has chunky tapering legs with a strong frame and open slatted mattress support.

ROUNDHAY BED

A frame bed with a shaped headboard that is echoed by the footboard – both foot and headboard panels are topped with a shaped capping that follows the profile of the satisfying curve. The most popular hardwood choice is oak, however Treske can make this bed design in a wide range of hardwood choices from maple to walnut.

Masham Media Unit

This modern media and TV unit was made by Treske to the client's brief to fit along one wall of the family TV room. A low base cupboard stores the game consoles and a DVD player. The speakers for the main TV are concealed behind fabric panelled doors. Carefully designed media units can make the best use of space in busy multi-purpose rooms and should also be attractive pieces of furniture in their own right.

HOME PROJECTS

Zebbrano Veneer Media Shelving Units

This bespoke shelving was designed and made to fit two alcoves each side of the chimneybreast in a room used by the family as a snug, TV and games room. The use of Zebbrano veneer gives a light, modern and stylish touch to the room. The veneer is used to create LED lit display shelving; a two door cupboard to conceal the games consoles sits above a log store in each alcove. The veneer is also used on the skirting linking the two halves of the design.

BESPOKE HOME OFFICES

No two clients work in the same way and every space has practical and aesthetic design considerations. Providing an effective office environment within a domestic setting gives Treske an opportunity to show how sympathetically this can be done. Fitted storage and working areas can be accompanied by freestanding chests of drawers, cupboards, filing cabinets, shelving, tables and chairs, all in matching hardwoods.

VISIT OUR SHOWROOMS

We warmly welcome visitors to our factory showrooms in an historic Victorian Maltings building in Thirsk, North Yorkshire. Here you can see and touch beautiful woods, sit on our chairs and sit at our tables, then linger among examples of our kitchens, fitted bedrooms and home offices.

Our showrooms and workshops have ample car parking and are located just off the A61 to Ripon, adjacent to Thirsk Railway station with good connections to London, York and Edinburgh, and further afield.

Within easy access from the A1, Thirsk is an ideal stopping point on many journeys. Thirsk is famous for its fine fifteenth-century St Mary's church, market place and well known racecourse. From the windows of the showrooms, a few miles to the east, the Hambleton Hills can be seen rising to the North York Moors.
